## ABOUT ME

Computer Engineering student with skills in cloud computing, DevOps, and full-stack development. Proficient in Python, Java, and C++, with AWS and Cisco certifications. Strong team player with a focus on problem-solving and contributing to success

## EXPERIENCE

**PETROFER Fluid Manager App** 2024 – 2024  
Role: Developer  
Technologies: PowerApps, AWS Cloud  
Developed a Fluid Manager App for Petrofer, a leading supplier of high-quality lubricants. The app streamlined the management of specialty fluids, reducing processing time by 20% and improving data accuracy.

**Personal Portfolio Website** 2022- 2022  
Role: Developer  
Technologies: HTML, CSS, JavaScript , github  
Portfolio: [shakeerislam.netlify.app](https://shakeerislam.netlify.app)

**DIGITAL ALCHEMY** 2023- 2024  
Role: Developer  
Technologies: Unity, AR-Core, Android  
Created "Digital Alchemy," an AR application for architectural and interior design. Built on Unity and optimized for Android, it enables easy creation and customization of virtual environments. Integrated AR-Core for immersive experiences and improved design accuracy.
